Subject: PDP Onion Method Validation - New York Laboratory
Attachments: ON Method Validation Communication to EPA and FDA 030218 NY.pdf

Hello,

Attached is a memo detailing the results of the New York laboratory's method validation efforts for onions. The memo specifies those compounds requested, based on U.S. onion registrations/tolerances, but not able to be validated. The Florida laboratory also analyzed onions for PDP during 2017 and their method validation information was communicated in a previous memo. Please let us know if you have any questions or need any additional information.

Best regards,
Diana
